

Types of cases treated with Simpli5

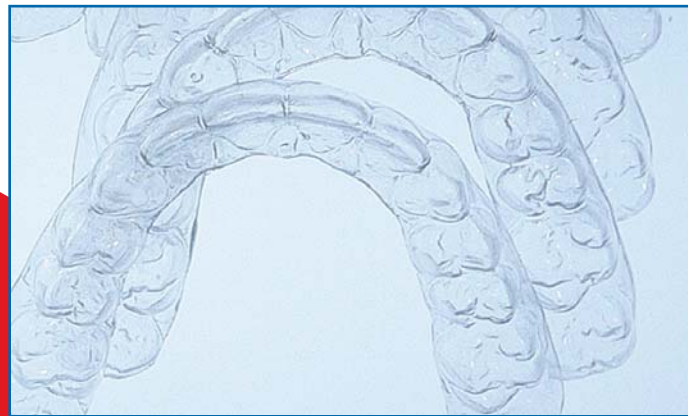

*Simpli*5™ EXPRESS ALIGNER SYSTEM

Simpli5 is the best solution for cases involving **minor to intermediate anterior** crowding or spacing and for orthodontic relapse cases.

What is Simpli5

- Developed for minor to intermediate correction
- Only five virtually invisible plastic Aligners
- Aligners are only worn for 3-4 weeks at a time
- Custom crafted to give you the smile you deserve

Are you a candidate for Invisible Aligner Treatment?

Fast

- You can start treatment 3-4 weeks after taking an impression.
- Most cases are completed in 5 months.
- Wear each of 5 trays for only 3-4 weeks.

Comfortable

- Minimal discomfort.
- There is minimal to no speech interference.
- The unique flexible duraclear material allows for gentle, consistent movement.

Convenient

- Virtually invisible; you can confidently work, exercise, and socialize while wearing your **Simpli5** aligners.
- Remove your aligners at meal time and for dental hygiene.
- **Simpli5** works for patients needing both dual arch or only one arch.
